CERTIFICATE OF ACHIEVEMENT

Boluwatife Adefemi

has started their journey from student to specialist by completing the Flip the Script Challenge, in association with Barclays.

The Flip the Script Challenge simulates the day-to-day tasks of a technology graduate or intern at Barclays. This certificate is proof of proficiency in Python amongst other software engineering skills that are required to successfully navigate the demands of a technology graduate programme at Barclays and excel in the world of technology.

BARCLAYS

The purpose of the Flip The Script Challenge in partnership with Barclays is to flip the script on perceptions about technology within the finance industry, by innovating the future of technology and supporting underrepresented groups in making their mark.
